

HEAT SEALED PANELS

HEAT SEALED PANELS

All Heat Sealed products will have approximately 1¼" wide seams. Prices are based on the full width of the fabric unless a cross seam is acceptable in which case Mauritzon will charge for a ½ cloth. When ordering, compare the product description from the catalog page to the item as described on this page and use the appropriate product number below.

Specify product color in all cases except where specifically indicated.

Mauritzon will be happy to heat seal your material for you. Call or fax us for complete information.
